

Child Care Philosophy

The Centre aims to look after your child and to support the needs of the parents as well.

In addition to child care the Centre also provides the support of a TEACHER and a PARENT SUPPORT WORKER to help with any issues or problems of parenting and life in general.

A variety of health and support services are provided to parents. These operate in conjunction with the educational and youth development facilities on the Balga Campus, providing comprehensive educational and skill development programs for young parents, including specialized educational programs in parenting and child development.
